Valuated Supplier,

Donel S.r.l. asks all its network of suppliers to comply with EC Regulation No. 1907/2006 REACH concerning the registration, evaluation, authorization and restriction of chemical substances.

EC Regulation No. 1907/2006 REACH is, in effect, already in force since 1st June 2007.

Aforementioned regulation establishes a six-monthly update, by the supervising European body, of the Candidate List : the list of SVHC substances, that is substances of very high concern.

It is, therefore, your task to ensure periodically that there are no worrisome substances in quantities greater than 0.1% w/w in products supplied to us, following also the updates of the Candidate List.

We remind you that, since you are also subjected to the obligations of the REACH Regulation, it will not be possible to supply any material to our company, without meeting it and the required accompanying documentation on that matter.

In absence of any communications by you regarding this matter, for Donel S.r.l. silence/consent is valid as a confirming compliance with EC regulation No. 1907/2006 REACH.

Please take note of the above and operate in an appropriate manner, in order to meet our needs in this regard.

Thanks for your cooperation.

Best regards,  
Paolo Crucinio  
Donel S.r.l.
